

Domaća naloga 5 – Ibrahim Čaušević

Kalkulator napitnine:

KODA:

The screenshot shows the Android Studio IDE with a project named 'domacanalog_5_kalkulator'. The left sidebar displays the project structure under the 'app' folder, including 'manifests', 'kotlin+java', 'res', 'keepRules', and 'Gradle Scripts'. The main editor window shows the 'MainActivity.kt' file. The code defines a 'MainActivity' class that inherits from 'ComponentActivity'. It overrides the 'onCreate' method to call 'super.onCreate' and 'setContent'. The 'setContent' method uses a 'Column' layout to display a 'Text' view with the text 'Calculate Tip' in a size of 24.sp and color of Color.Black. Below the text, there is a call to a 'Kalkulator()' function. The 'Kalkulator' function is defined as a '@Composable' and uses 'remember' and 'mutableStateOf' to manage state for 'cena' and 'procent'.

```
19  
20 1 Usage  
21 class MainActivity : ComponentActivity() {  
22     override fun onCreate(savedInstanceState: Bundle?) {  
23         super.onCreate(savedInstanceState)  
24         setContent {  
25             Column(  
26                 modifier = Modifier  
27                     .fillMaxSize()  
28                     .background(Color.White)  
29                     .padding(top = 80.dp, start = 32.dp, end = 32.dp),  
30                 horizontalAlignment = Alignment.CenterHorizontally,  
31                 verticalArrangement = Arrangement.spacedBy(16.dp)  
32             ) {  
33                 Text(  
34                     text = "Calculate Tip",  
35                     fontSize = 24.sp,  
36                     color = Color.Black  
37                 )  
38                 Kalkulator()  
39             }  
40         }  
41     }  
42 }  
43  
44 1 Usage  
45 @Composable  
46 fun Kalkulator() {  
47     var cena by remember { mutableStateOf( value = "" ) }  
48     var procent by remember { mutableStateOf( value = "" ) }
```

```

43
44 1 Usage
45 @Composable
46 fun Kalkulator() {
47     var cena by remember { mutableStateOf( value = "" ) }
48     var procent by remember { mutableStateOf( value = "" ) }
49     var zaokrozi by remember { mutableStateOf( value = false ) }
50     val znesek = cena.toDoubleOrNull() ?: 0.0
51     val tip = procent.toDoubleOrNull() ?: 0.0
52     var napitnina1 = znesek * (tip / 100.0)
53     if (zaokrozi) {
54         napitnina1 = ceil( x = napitnina1 )
55     }
56     val izpis = String.format("%.2f", napitnina1)
57
58     VnosVrstica(
59         vrednost = cena,
60         onVrednostChange = { cena = it },
61         label = "Cost of Service",
62         modifier = Modifier.fillMaxWidth()
63     )
64     VnosVrstica(
65         vrednost = procent,
66         onVrednostChange = { procent = it },
67         label = "Tip (%)",
68         modifier = Modifier.fillMaxWidth()
69     )
70     VrsticaZaokrozi(
71         prikazano = zaokrozi,
72         onPrikazanoChange = { zaokrozi = it },
73         modifier = Modifier.fillMaxWidth()
74     )
75     VrsticaRezultat(
76         rezultat = izpis,
77         modifier = Modifier.fillMaxWidth()
78     )
79 }

```

```

80 2 Usages
81 @Composable
82 fun VnosVrstica(
83     vrednost: String,
84     onVrednostChange: (String) -> Unit,
85     label: String,
86     modifier: Modifier = Modifier
87 ) {
88     TextField(
89         value = vrednost,
90         onValueChange = onVrednostChange,
91         label = { Text(text = label) },
92         keyboardOptions = KeyboardOptions(keyboardType = KeyboardType.Number),
93         modifier = modifier,
94         colors = TextFieldDefaults.colors(
95             unfocusedContainerColor = Color(0xFFE2E2E2),
96             focusedContainerColor = Color(0xFFD6D6D6)
97         )
98     )
99 }
100 1 Usage
101 @Composable
102 fun VrsticaZaokrozi(
103     prikazano: Boolean,
104     onPrikazanoChange: (Boolean) -> Unit,
105     modifier: Modifier = Modifier
106 ) {
107     Row(
108         modifier = modifier,
109         horizontalArrangement = Arrangement.SpaceBetween,
110         verticalAlignment = Alignment.CenterVertically
111     ) {
112         Text(text = "Round up tip?", fontSize = 16.sp, color = Color.Black)
113         Switch(
114             checked = prikazano,
115             onCheckedChange = onPrikazanoChange
116         )
117     }
118 }

```

```

117     1 Usage
118     @Composable
119     fun VrsticaRezultat(
120         rezultat: String,
121         modifier: Modifier = Modifier
122     ) {
123         Box(
124             modifier = modifier.padding(top = 16.dp),
125             contentAlignment = Alignment.Center
126         ) {
127             Text(
128                 text = "Tip Amount: $rezultat",
129                 fontSize = 20.sp,
130                 fontWeight = FontWeight.Bold,
131                 color = Color.Black
132             )
133         }
134     }

```
